👤 PROFILE

As an IT Specialist working full-time and simultaneously pursuing a PhD, I bring a unique combination of professional expertise and academic rigor. With a research master's degree in Enterprise Systems Engineering, I have developed a strong foundation in information systems, data analysis, and advanced research methodologies. My background equips me with the ability to analyze complex problems, design effective solutions, and apply innovative approaches to real-world challenges. By combining hands-on IT experience with academic insight, I aim to contribute to impactful projects, drive efficiency, and support organizational growth in dynamic and evolving environments.
